AUTHORITY AND REFERENCE

Public Resources Code (PRC) 4551 and 4554.5 authorizes the Board to adopt such rules and regulations as it determines are reasonably necessary to enable it to implement, interpret or make specific sections 4512, 4513 and 4561 of the Public Resources Code. Reference: Public Resources Code sections 4513, **4551.3**, 4551.5, 4561, **4584** and 21080.5.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The statutory authority for Sustained Yield Plans comes from the Legislature's direction that the Board adopt regulations to assure the continuous growing and harvesting of commercial forest tree species and to protect the soil, air, fish and wildlife, and water resources in accordance with the policies of the Forest Protection Act pursuant to PRC 4551 and 4551.3. Sustained Yield Plans (SYPs) are supplemental documents to the Timber Harvest Plan that address long term issues of sustained timber production and cumulative effects analysis for fish, wildlife and watershed impacts on a large landscape basis. The Board recognizes that the lack of a clear process for renewal of existing SYPs in the current regulations is likely to result in steadily diminishing interest in use of existing SYPs and any possible future SYP submissions. The regulatory proposal is intended to improve the functionality and usefulness of the existing Forest Practice Rules for Sustained Yield Plans to promote SYP continued use. The proposed rule language

clarifies the review and approval process by which an approved SYP may be renewed for another ten-year period.

SPECIFIC PURPOSE OF THE REGULATION

This regulatory proposal is intended to remedy the lack of clarity on the review and approval of successive SYP documents through specific rule language revision and additions.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Board has determined the proposed action will have the following effects:

- Mandate on local agencies and school districts: None are known.
- Costs or savings to any State agency: None are known.
- Cost to any local agency or school district which must be reimbursed in accordance with the applicable Government Code (GC) sections commencing with GC 17500: None are known.
- Other non-discretionary cost or savings imposed upon local agencies: None are known.

- Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None are known.
- Potential cost impact on private persons or directly affected businesses: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. The proposed regulation does not impose any new operational or plan preparation requirements that would result in an adverse cost impact.
- Effect on small business: None. The Board has determined that the proposed amendments will not affect small business because the proposal adds no new operational or plan preparations cost.
- Significant effect on housing costs: None are known.
- Adoption of these regulations will not create or eliminate jobs within California.

- Adoption of these regulations will not: (1) create new businesses or eliminate existing businesses within California; or (2) affect the expansion of businesses currently doing business within California.

The proposed Rules do not conflict with, or duplicate Federal regulations.

BUSINESS REPORTING REQUIREMENT

The regulation does not require a report, which shall apply to businesses.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code 11346.5(a) (13), the Board must determine that no reasonable alternative it considers or that has otherwise been identified and brought to the attention of the Board would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.
