

PROFESSIONAL FORESTERS REGISTRATION

Professional Foresters Registration shall protect the public interest through the regulation of those individuals who are licensed to practice the profession of forestry, and whose activities have an impact upon the ecology of forested landscapes and the quality of the forest environment, within the State of California. Working in concert with the Professional Foresters Examining Committee of the State Board of Forestry and Fire Protection, Professional Foresters Registration shall:

- Evaluate the educational and work experience qualifications of those individuals seeking licensing as a Registered Professional Forester or Certified Specialist. Formulate and administer a comprehensive examination, recommending those receiving a passing score be licensed by the Board of Forestry and Fire Protection.
- Review and evaluate complaints regarding the professional conduct of Registered Professional Foresters and Certified Specialists, and recommend appropriate disciplinary action to the Board of Forestry and Fire Protection as necessary.
- Recommend to the Board of Forestry and Fire Protection, the adoption, or modification, of rules and regulations that govern the practice of professional forestry in California.
- Facilitate and encourage the continuing forestry education of Registered Professional Foresters, Certified Specialists and the citizens of California.
