

Elevational Zones for Special-Status Wildlife Species that are Known to Occur or May Occur within Yuba Roadside Fuel Treatment Project Area

Purpose: This example table from the Yuba Roadside Fuel Treatment Project shows how elevational zones may be used to aid in implementation of special-status wildlife measures on projects that occur across a large elevation range.

Yuba Roadside Fuel Treatment Project Elevation Zones

¹ Elevation zones are intended to provide a rough guide regarding wildlife species distribution in Yuba County. Final determinations regarding species with potential to occur in a treatment area should be verified by a qualified RPF or biologist.
