Permanent Post-Fire Recovery Regulations, 2019
Title 14 California Code of Regulations
Division 1.5, Chapter 4
Subchapter 7, Article 2
Amend §§ 1038, 1038.1, 1038.2
Repeal § 1038.5

§895.1

„Approved and Legally Permitted Structure” means, for the purposes of 14 CCR § 1038(c)(1)-(5), only structures that are designed for human occupancy and garages, barns, stables, and structures used to enclose fuel tanks.

§ 1038. Exemption.

Timber Operations conducted pursuant to this section are exempt from the Plan preparation and submission requirements (PRC § 4581) and from the completion report and Stocking report requirements (PRC §§ 4585 and 4587) of the FPA. Timber Operations conducted under any notice of
exemption described herein shall be limited to one (1) year from the date of receipt by the Director, and shall comply with all operational provisions of the FPA and District Forest Practices Rules applicable to “Timber Harvest Plan”, “THP”, and “Plan” definitions per 14 CCR § 895.1. In-lieu practices within WLPZs as specified under Article 6 of these Rules, exceptions to the Rules, and alternative practices are not allowed. The following types of Timber Operations are exempt:

(c) Harvesting dead or Dying Trees to facilitate the removal of hazardous material or the reconstruction or construction of Approved and Legally Permitted Structures that were damaged or destroyed by wildfire. The provisions of a notice of exemption submitted pursuant to this subsection supersede the provisions of any other notices of exemption that are submitted in the same Harvest Area. The following conditions apply:

(1) Only trees within three-hundred (300) feet from any point of an Approved and Legally Permitted Structure that was damaged or destroyed by wildfire may be harvested.

GEOPHYSICAL APPLICABILITY OPTION #1

(2) The proposed harvesting activities must be consistent with, and within the geographic scope of, an existing valid and effective gubernatorial proclamation of a state of emergency or executive order. The timberland owner shall submit a copy of the valid and effective gubernatorial proclamation of a state of emergency or executive order with the notice of exemption described within 14 CCR § 1038.1.

GEOPHYSICAL APPLICABILITY OPTION #2

(2) Any trees which are proposed for harvest must be dead or Dying as a result of a wildfire which had occurred no more than three (3) years from the date of submittal of the notice of exemption as described within 14 CCR § 1038.1. The timberland owner shall submit certification that all proposed Timber Operations are necessary in order to facilitate the removal of hazardous material or the reconstruction or construction of Approved and Legally Permitted Structures that were damaged or destroyed by wildfire.
Structures that were damaged or destroyed by such a wildfire, as well as certification by an RPF that all trees proposed for harvest are dead or Dying as a result of such a wildfire.

**GEOGRAPHIC APPLICABILITY OPTION #3**

(2) Timber Operations conducted pursuant to this subsection may be permitted if:

(a) They are consistent with, and within the geographic scope of, an existing valid and effective gubernatorial proclamation of a state of emergency or executive order. If the proposed Timber Operations are consistent with, and within the geographic scope of such a proclamation or order, the timberland owner shall submit a copy of the valid and effective gubernatorial proclamation of a state of emergency or executive order with the notice of exemption described within 14 CCR § 1038.1; or

(b) If no gubernatorial proclamation of a state of emergency or executive order exists such as described in subparagraph (a) above, but the proposed Timber Operations are necessary to facilitate the removal of hazardous materials or the reconstruction or construction of Approved and Legally Permitted Structures that were damaged or destroyed by a wildfire no more than three (3) years prior to the submission of a notice of exemption as described within 14 CCR § 1038.1. In such an instance, the timberland owner shall submit certification that all proposed Timber Operations are necessary in order to facilitate the removal of hazardous material or the reconstruction or construction of Approved and Legally Permitted Structures that were damaged or destroyed by such a wildfire, as well as certification by an RPF that all trees proposed for harvest are dead or Dying as a result of such a wildfire.

(3) Timber Operations conducted under this subsection shall conform to applicable city or county general plans, city or county implementing ordinances, and city or county zoning ordinances within which the Harvest Area is located. The Timber Operator or timberland owner...
shall certify that the city or county has been contacted and the Timber Operations conducted
under the notice of exemption conforms with all city or county regulatory requirements.

(4) All Slash and Woody debris greater than one (1) inch but less than eight (8) inches in
diameter within one-hundred-fifty (150) feet of an Approved and Legally Permitted Structure that
was damaged or destroyed by wildfire shall be removed, chipped or piled and burned.

(5) All Slash created between one-hundred-fifty (150) feet and three-hundred (300) feet of an
Approved and Legally Permitted Structure that was damaged or destroyed by wildfire shall be
treated by Lopping for Fire Hazard Reduction, removed, chipped or piled and burned within
forty-five (45) days from the start of Timber Operations; except for the burning of piles, which
shall be accomplished not later than April 1 of the year following their creation; or for piles
created on or after September 1, not later than April 1 of the second year following creation.

[ALTERNATIVE]

(g) Harvesting trees which are dead or Dying as a result of wildfire within within three-hundred (300) feet
from any point of an Approved and Legally Permitted Structure. The provisions of a notice of exemption
submitted pursuant to this subsection supersede the provisions of any other notices of exemption that
are submitted in the same Harvest Area. The following conditions apply:

(1) Only trees within three-hundred (300) feet from any point of an Approved and Legally
Permitted Structure that was damaged or destroyed by wildfire may be harvested.

GEOGRAPHIC APPLICABILITY OPTION #1

(2) The proposed harvesting activities must be consistent with, and within the geographic scope
of, an existing valid and effective gubernatorial proclamation of a state of emergency or
executive order. The timberland owner shall submit a copy of the valid and effective
gubernatorial proclamation of a state of emergency or executive order with the notice of
exemption described within 14 CCR § 1038.1.
GEOGRAPHIC APPLICABILITY OPTION #2

(2) Any trees which are proposed for harvest must be dead or dying as a result of a wildfire which had occurred no more than three (3) years from the date of submittal of the notice of exemption as described within 14 CCR § 1038.1. The timberland owner shall submit certification by an RPF that all trees proposed for harvest are dead or Dying as a result of such a wildfire.

GEOGRAPHIC APPLICABILITY OPTION #3

(2) Timber Operations conducted pursuant to this subsection may be permitted if:
   (a) They are consistent with, and within the geographic scope of, an existing valid and effective gubernatorial proclamation of a state of emergency or executive order. If the proposed Timber Operations are consistent with, and within the geographic scope of such a proclamation or order, the timberland owner shall submit a copy of the valid and effective gubernatorial proclamation of a state of emergency or executive order with the notice of exemption described within 14 CCR § 1038.1; or
   (b) If no gubernatorial proclamation of a state of emergency or executive order exists such as described in subparagraph (a) above, but the proposed Timber Operations are necessary to remove trees which were damaged or destroyed by a wildfire no more than three (3) years prior to the submission of a notice of exemption as described within 14 CCR § 1038.1. In such an instance, the timberland owner shall submit certification by an RPF that all trees proposed for harvest are dead or Dying as a result of such a wildfire.

(3) Timber Operations conducted under this subsection shall conform to applicable city or county general plans, city or county implementing ordinances, and city or county zoning ordinances within which the Harvest Area is located. The Timber Operator or timberland owner shall certify that the city or county has been contacted and the Timber Operations conducted under the notice of exemption conforms with all city or county regulatory requirements.
(4) All Slash and Woody debris greater than one (1) inch but less than eight (8) inches in
diameter within one-hundred-fifty (150) feet of an Approved and Legally Permitted Structure that
was damaged or destroyed by wildfire shall be removed, chipped or piled and burned.

(5) All Slash created between one-hundred-fifty (150) feet and three-hundred (300) feet of an
Approved and Legally Permitted Structure that was damaged or destroyed by wildfire shall be
treated by Lopping for Fire Hazard Reduction, removed, chipped or piled and burned within
forty-five (45) days from the start of Timber Operations; except for the burning of piles, which
shall be accomplished not later than April 1 of the year following their creation; or for piles
created on or after September 1, not later than April 1 of the second year following creation.

Department of Forestry and Fire Protection and Board of Forestry (1996) 43 Cal. App.4th 1011.(b)
§

1038.1. Additional Exceptions or Requirements
Preparation or submittal of a notice of exemption described in 14 CCR § 1038, or Timber Operation
thereunder, shall comply with the additional exceptions or requirements as described.

(a) A notice of exemption, pursuant to 14 CCR § 1038, shall be submitted to the Director, on a
form provided by the Department, prior to the commencement of Timber Operations. The
form shall contain the following information:

(1) The type of exemption.

(2) Name(s), address, and telephone number(s) of the Timber Owner(s), timberland
owner(s), and Timber Operator.

(3) Name, address, and telephone number and license number of the RPF, if applicable.

(4) Legal description of the location of the Timber Operation.
(5) The tentative date of commencement of Timber Operations.

(6) A signature of the landowner certifying that they are the landowner and have read and understand the information contained within the notice of exemption.

(b) For notices of exemption pursuant to 14 CCR § 1038, the additional requirements apply:

(1) All Timber Operations conducted in the Lake Tahoe Region must have a valid Tahoe Basin Tree Removal Permit, as defined by TRPA, or shall be conducted under a valid TRPA Memorandum of Understanding, when such a permit is required by TRPA.

(2) The Department shall provide the appropriate RWQCB, CDFW, and CGS with copies of the submitted notice of exemption prior to the tentative date of commencement of Timber Operations.

(3) No helicopter yarding shall be allowed.

(c) The following additional exceptions or requirements apply to prepared, submitted, or a Timber Operation conducted under a notice of exemption as provided in Table 1 below.

(1) The notice of exemption shall be prepared, signed, and submitted to the Department by a RPF.

(2) Upon submission of the notice of exemption, a Confidential Archaeological Letter pursuant to 14 CCR § 929.1 must be provided to the Director and the RPF shall send a copy of the notice of exemption to Native Americans as defined in 14 CCR § 895.1.

(3) No Timber Operations on any site that satisfies the criteria listed in 14 CCR § 895.1 for a Significant Archaeological or Historical Site (information on some of these sites may be available from the Information Centers of the California Historical Resources Information System within the Department of Parks and Recreation), except under the following conditions:

   (A) If a Significant Archaeological or Historical Site is identified by the RPF preparing the notice of exemption within the project boundary, the site may be preserved in place by capping or covering with a layer of soil prior to submission.

   (B) If a site has been preserved in place, the RPF preparing the notice of exemption shall obtain written concurrence from a Department archeologist prior to submission indicating operations will not cause damage to a Significant Archaeological or Historical Site.

   (C) The written concurrence from a Department archeologist shall be submitted with the notice of exemption.

(4) Fuel treatments as follows:

   (A) Slash within the Harvest Area shall be treated to achieve a maximum post-harvest depth of thirty (30) inches above the ground. All Slash shall be lopped, removed,
chipped, piled for burning, or otherwise treated, within one (1) year from the date of
the Director receiving the notice except for burning. Burning shall be completed
within two (2) years from the date of the Director receiving the notice.

(B) Slash shall be treated to achieve a maximum post-harvest depth of eighteen (18)
inches above the ground on at least eighty (80) percent of the Harvest Area. All
Slash shall be lopped, removed, chipped, piled for burning, or otherwise treated,
within one (1) year from the date of the Director receiving the notice except for
burning. Burning shall be completed within two (2) years from the date of the
Director receiving the notice.

(5) No tractor or heavy equipment operations on slopes greater than fifty (50) percent.
No construction of new tractor roads on slopes greater than forty (40) percent.

(6) Timber Operations within any Special Treatment Area shall comply with the rules associated
with that Special Treatment Area.

(7) No tractor or heavy equipment operations on known Unstable Areas.

(8) No new road construction or reconstruction, as defined in 14 CCR § 895.1.

(9) No heavy equipment operations within the standard width of a WLPZ, as defined in 14 CCR
§ 916.4 [936.4, 956.4] (b), except for maintenance of roads and Drainage Facilities or
structures.

(10) No known sites of rare, threatened or endangered plants or animals will be disturbed,
threatened or damaged.

(11) No Timber Operations within the buffer zone of a Sensitive Species.

(12) No timber harvesting within the standard width of a WLPZ, as defined in 14 CCR § 916.4
[936.4, 956.4] (b), except sanitation-salvage harvesting, as defined in 14 CCR § 913.3
[933.3, 953.3], where immediately after completion of operations, the area shall meet the
Stocking Standards of 14 CCR § 912.7 [932.7, 952.7] (b)(2), or, except the removal of dead
or dying trees where consistent with 14 CCR § 916.4 (936.4, 956.4) (b). Trees to be harvested shall be marked by, or under the supervision of, an RPF prior to Timber Operations.

(13) The Director shall notify the submitter of the date of the Director’s receipt of the notice of exemption. Timber Operations pursuant to the notice of exemption may not commence for five (5) working days from the date of the Director’s receipt of the notice of exemption unless this delay is waived by the Director. If the notice of exemption is not complete and accurate, the Director shall notify the submitter within five (5) working days from the date of the Director’s receipt, and the Timber Operations may not commence. The Director shall determine whether the notice of exemption is complete and accurate, and if so, shall send a copy of a notice of acceptance to the submitter; provided, however, if the Director does not act within five (5) working days of receipt of the notice of exemption, Timber Operations may commence.

(A) Timber Operations may not be conducted without a copy of the Director’s notice of acceptance of the notice of exemption at the operating site, except where the Director has failed to act within the five (5) working-day review period.

(14) Before beginning Timber Operations, the LTO, RPF, or person responsible for submittal of the notice of exemption shall notify CAL FIRE of the actual commencement date of operations. The notification, by telephone, mail, or email, shall be directed to the appropriate CAL FIRE Unit Headquarters, Forest Practice Inspector or other designated personnel. If the notification is provided by mail, Timber Operations may not commence until three (3) days after the postmark date of notification. The provisions of this paragraph do not supersede the requirements of paragraph (13) above.

(15) No large old trees, defined as a tree that existed before 1800 AD and is greater than sixty (60) inches in diameter at stump height for Sierra or Coast Redwoods, and forty-eight (48)
inches in diameter at stump height for all other tree species, or Decadent and Deformed Trees with Value to Wildlife shall be harvested unless the following apply:

(A) The tree is not critical for the maintenance of a Late Successional Stand.

(B) A RPF attached to the submitted notice of exemption a written explanation and justification for the harvest of the tree based on the RPF's finding of any of the following:

1. The tree is a hazard to safety or property.

2. The removal of the tree is necessary for the construction of a building as approved by the appropriate local jurisdiction and shown on the county or city approved site plan, which shall be attached to the submitted notice of exemption.

3. The tree is dead or likely to die within one (1) year of the date of the proposed removal, as determined by a RPF.

(C) An RPF’s written explanation or justification need not be attached to the submitted notice of exemption if an approved Habitat Conservation Plan, Sustained Yield Plan, or Plan addresses large old tree retention for the area in which the large old tree is proposed for removal and the removal is in compliance with the retention standards of that document.

A submitted notice of exemption shall include a seven-and-one-half (7½) minute USGS quadrangle map, or its equivalent, depicting the information as required in Table 1 below. Additional maps, which may be topographic or planimetric, may be used to provide additional information, to show specific details, and
to improve map clarity. A larger scale map such as an assessor parcel map showing the location of the 
Timber Operations shall be included for exemptions conducted under 14 CCR § 1038 (c). The 
Appurtenant Roads included within the Logging Area pursuant to subsection (b) below may be shown on 
a map which may be planimetric with a scale as small as one-half inch equals one mile. Color coding 
shall not be used. A legend shall be included indicating the meaning of the symbols used. The submitted 
notice of exemption shall indicate if more than one Yarding system is to be used and identify the 
systems (if more than one is used).
