| <p style="text-align: center;">CDFA – Healthy Soils Grant</p> | <p>https://www.cdfa.ca.gov/oefi/healthysoils/</p> <ul style="list-style-type: none"> - The Healthy Soils Program stems from the California Healthy Soils Initiative, a collaboration of state agencies and departments to promote the development of healthy soils on California's farmlands and ranchlands. - The HSP Incentives Program provides financial incentives to California growers and ranchers to implement conservation management practices that sequester carbon, reduce atmospheric greenhouse gases (GHGs), and improve soil health. GHGs benefits are estimated using quantification methodology and tools developed by California Air Resources Board (CARB), USDA-NRCS and CDFA and soil health improvement will be assessed by measuring soil organic matter content. - The The HSP Demonstration Projects aim to improve soil health, sequester carbon and reduce atmospheric greenhouse gases (GHGs) funding on-farm demonstration projects that collect data and/or showcase conservation management practices that mitigate GHG emissions and increase soil health, and creating a platform promoting widespread adoption of conservation management practices throughout the state. <ul style="list-style-type: none"> o Type A projects will demonstrate implementation of conservation management practices, measure field GHGs emissions, and conduct analysis on cost/benefits for adoption of the proposed practice(s) and anticipated barriers; o Type B projects will demonstrate implementation of HSP conservation management practices and/or conduct analysis on cost/benefits for adoption of the proposed practice(s) and anticipated barriers. o https://www.cdfa.ca.gov/oefi/healthysoils/docs/2018-HSPDemo_PracticePaymentRates.pdf | <p>Solicitation - December 28, 2018</p> <p>Grant Applications Due - March 8, 2019</p> <p>Review Process March – June 2019*</p> <p>Announce and Award Funding - June 2019*</p> <p>* Subject to change.</p> |
