

October 2024 RPF Exam Key Words

Accumulating shear

additionality

Advection Fog

Agroforestry

air pollutants

alternative practice

anthropogenic

aquatic primary productivity

Biological legacies

Biomass

bulk density

Burning Index

California Endangered Species Act

CALIFORNIA GEOLOGY

California State Historical Resources Commission

capital budgeting

Carbon Accounting

carbon offset projects

CEQA

chain of custody

Channel complexity

Chip n Saw

clear and convincing evidence

Clearcutting regeneration method

Climate change

Climax Forest

Coast Redwood

Commercial Thinning intermediate treatment

Computer Growth models

conifers

Conservation Easement

Continuous Forest Inventory

Critical Dip

culvert's discharge capacity

CUTTING CONTRACT

damping-off

daylighting

Deactivated Road

delivered log sale

density management diagram

Depletion

digital growth simulator

Digital Stand Simulator

directional felling

discount rate

dying tree

economic feasibility

economic viability of stand cultural practices

effective fire suppression

EIR

Endangered Species Act

enforceable standard

environmental mitigation measures

Equilibrium State

Evapotranspiration

Even-aged Yield Tables

exotic species

explained and justified

Fire and Fire Surrogate study

Fire and Fuel Extension (FFE) of the Forest Vegetation Simulator

forest disturbances and recovery regimes

forest products sectors

forest soil

Forest Stream Temperatures

forest succession

forestland

Gene conservation

Gene flow

Gene pool

genera of bark beetles

general types of mitigations

Genetic diversity

growing stock

heterogeneous forest structure

Heterotrophic respiration

Humidity

hydrologic connectivity

hydrophobic soil

impacts of compaction

Ingrowth

inlet control

input-output sector analysis

integrated pest management

Interglacial Warming

invasive species

Linear Programming

Long Term Sustained Yield

Low Ground Pressure Equipment

Magnitude and Frequency Method

MAI

major slope forms

Mast

maximize board foot LTSY

Mean Annual Increment

Metadata

mitigation measures

mycorrhiza

Natural range of variation

Natural seedfall regeneration

Net Present Value

net primary productivity

nitrogen-fixing bacteria.

Nurse tree

obligate species

PAI

permanent road

PEST MANAGEMENT

Pest management

plant diversity

Porter-Cologne Water Quality Act

potential significant adverse environmental effects

precommercial thinning

project alternative

P-Torch

QMD

Reforestation

Regional Water Quality Control Board

residual stand damage

Riparian and Aquatic Wildlife

riparian zones

Risk and uncertainty in forest management planning

Roads and skid trails

Root diseases

Sawmills

seed source

seed tree regeneration

Seedbed

Silvicultural methods

slash disposal

Species

stand composition

Stand density management

stand function

stand structure

Stand Table Projection

State regulatory agencies

Stem Analysis

Stocking Survey

stream sedimentation

Stumpage Sale

Summer Stream Flow

symptoms and signs

Tahoe Regional Planning Agency

Talbot's Equation

Tax agencies

Teragrams

Timber Regulation and Forest Restoration Fund

Township land survey grid

Tree Form Factor

upper and lower limits of growing stock

Valuation

Vapor pressure gradient

Variable costs

Variable Retention

Watercourse and Lake Protection Zones

wildfire hydrologic condition changes

wildfire soil condition changes

windthrow

wood quality

Yellow pine and mixed-conifer (YPMC) forests

Z'berg-Nejedly Forest Practices Act of 1973
